News From Your TOWN HALL

Wonders never cease. Peter Paul of the DeMoya Clan appeared before the Town Fathers Wednesday night offering them a new rate for the use of the water plant in return for the increased consumption and brought along an offer of a rebate of over \$800 for past bills.

P. P. seems to have found a rate granted to municipal water plants whereby after certain demand and used volume is reached another rate becomes effective, and it was also found that the rate should have become effective back in 1941.

If the present consumption is continued, it is reported the annual saving will be around \$400.

Your town has had a Zoning Committee working for several weeks on a suggested zoning law for its consideration and that report has been submitted. A glance at the colored map designating what you may and may not build in certain areas will convince anyone that a lot of work has been put out.

The Town needs badly an ordinance that will allow every property owner to know the trend of immediate development as well as for the protection of whatever property he might already have. A start has been made with evidence of study on the part of the Committee of zoning ordinances of nearby larger cities.

There is one thing, however, the public should not forget. An ordinance can be passed and enforced and can greatly affect your property rights. You owe it to your Town Commission to get up there and see the proposed law, study it, and give in your two-bits worth BEFORE the law is passed and not wait till it is passed and then say what you think the Commission is for doing so and so.

The registration books are still open at the City Hall. The field is still open for the filing of the bills to be filed in September.

Street Commissioner McDonald says "We are tried to spend the money where it was most needed and are proud that circumstances have allowed us to accomplish as much as we have. Many business men have complimented us for the work we have done. We are only sorry that more permanent work can not be done now."

Commissioner Risk has asked that a special meeting of the Commission be held Monday morning in order to discuss with State Board of Health officials and engineers the problem of going ahead with plans for the water supply extension.

It seems that somebody has an idea that plans and specifications may be made now for immediate work when materials are available and in conjunction with some governmental agency which will aid in the financing of the project.

If that is so, it appears that the Town will have taken steps to insure as early installation of works for Lake water and enlarging our overworked plant.

The Town has a 20-acre rock pit right close to the limits which when properly developed should (Continued on page 4)

City Fathers Fixing Streets In Business Section Of Town

\$20,000 Is Expended In Rebuilding, Upkeep and Repairs to Streets

With the passage of an ordinance appropriating \$15,000 from sums not otherwise appropriated, the Town Fathers Wednesday night provided the funds with which to pay for permanent and much needed street work which has been going on for some time. In the general scheme, three avenues to negro town have been provided in order to relieve congestion in the mornings and nights when farm help is going to and from the workers homes or places of congregation. Avenue A, the normal and much used street has been supplemented by Avenue "B" by rebuilding and topping for its entire length from the Hillsboro Canal to Fifth Street, or the main street in the quarters.

Avenue "E", which is a county road has been maintained by the County for sometime, and has just recently been topped, in another main route to and from the quarters.

Fifth Street has been repaved from Avenue "E" to the Hillsboro making a through street that can be negotiated without leaving up trucks.

All streets leading into Main street up town have been resurfaced and rebuilt to the gratification of business houses.

The street along the north side of the Hillsboro leading to what has been called "Toonerville" and the street right down the middle of the growing subdivision have been graded and surfaced.

The road leading from Pop Lord's parking house to "L" street NW—let you don't know where that is—is to be rebuilt as there is considerable traffic over this. "L" Street is the northern limit of the Town or the road running from the airport to the icehouse.

The fund of \$6,000 set up in the budget for street repair and maintenance has been exhausted and the additional \$14,000 adds the finishing touch to available funds for this purpose.

Electoral College Antiquated Method Of Electing A Man

John Bollinger, senior member of the House of Representatives from Palm Beach County, enlightened and surprised his hearers at the Torrey meeting Friday with his discourse on the Electoral College, or our present method of selecting a President.

Under the present method of voting in the Electoral College it is entirely possible, according to the speaker, for considerably less than 50 per cent of the votes cast in any presidential election to name the President.

Several times in our history the man who received the most popular votes did not end up in the White House except as a disgruntled visitor.

Mr. Bollinger stated that there is a movement on foot to make our selection of President strictly a democratic one that will insure the one receiving a majority of the votes being seated in the job.

Seaman Paff of the WAVES writes from Stillwater, Oklahoma, where she is receiving her yeoman training. "Florida was never so hot as this midwestern town, which will be my home for the entire summer. Yesterday several mates and myself took in

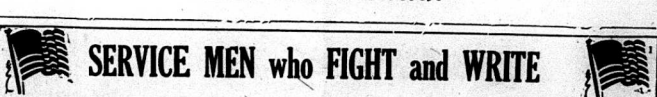

They're Going "All Out" Like This For You "E" Bond Sale Sadly Behind Quota With Short Time to Move

Some Come Back Like This Others Stay Like This

Are You Backing The Invasion By Buying That Extra Bond?

SERVICE MEN who FIGHT and WRITE

the town and nearly roasted. In one of the stores, the temperature was 94 degrees. The native say it isn't half as hot as it will be in August, so looks like I have something to look forward to.

This college is wonderful, the grounds and buildings are like new. There are only two and three girls to a room and the furniture is maple. We have an immense lounge, it has two baby grand pianos and beautiful furniture and rugs. I am expecting to have a swell time here as there is lots to do. A big swimming pool, roller skating rink, five or six theatres, two USO's and a big lake nine miles away where everyone goes canoeing, rowing, swimming and for picnics. Am planning on going bicycle riding this afternoon and to a show with some of my mates.

"Please send me the Herald so I can keep up with the home town news."

JIM MOODY S 1c

Jim Moody, Seaman first class has been transferred to the Naval Air Gunnery School in Jacksonville. He was formerly stationed in Chicago, Ill, and recently spent a leave here with his parents.

CLARENCE KIDDER AJS

Clarence Kidder an aviation student of the V-3 Naval training course stationed at Chapel Hill, N. C., has arrived to spend a week leave with his parents. Mr. and Mrs. Ralph W. Kidder, Clarence has just successfully completed his freshman year of V-3A which is college work of the V-5 course. Upon his return he will begin his sophomore term and according to present plans will start his prestige training next November. This delay in their flight training is due to the French Navy sending in officers and cadets to train in the U. S. Navy program of pre-flight training.

JOHN HAWKINS RM 1-c

Johnnie Hawkins, Radioman first class spent a few hours with his wife and daughter, Dian, while enroute to Norfolk, Va., where he expects to be reassigned for further duty. For the past six months he has been stationed at Trinidad and served as radioman on naval flights.

PVT. MILTON GIESE

Private Giese has been transferred to Fort Fisher, N. C. from Shreveport, La., where he has been on bivouac with an air warning battalion for several months.

LT. HILDY CHRISTOPHER

Lt. Christopher, so of Mr. and Mrs. Harry Johnson, has been transferred to Clover, New Mexico from Lowrey Field, Denver, Colorado.

EMMETT LEWIS S 2c

Emmett Lewis enlisted in the Navy at Atlanta, Georgia, eight weeks ago and has recently completed his boot training at Camp Perry, Va. He is returning to his base today to be assigned to duty or further training after spending a ten day leave here with his family. He was formerly employed by D. L. Mahaley of Tanami Trail Tours, Inc.

Have A Sane Fourth!

PROCLAMATION

WHEREAS, The 4th of July holiday is a four day period this year beginning Saturday, July 1st, and ending Wednesday, July 5th, and

WHEREAS, The Florida Safety Council is cooperating with law enforcement agencies, civic clubs, the press, and others in trying to make this 4th of July holiday a safe event, and

WHEREAS, The writers of the Constitution intended that the 4th of July should be celebrated as a day of prayer and reverence and not a day of accidents and fatalities as in the past, and

WHEREAS, We are now engaged in the worst bloody war and our boys and girls are dying on the battle fronts to make our nation safe,

NOW, THEREFORE, I, J. K. Baker, Mayor of the City of Belle Glade, urge that everyone practice Safety and Community Sense during the holiday period.

Signed: J. K. Baker, Mayor

That \$5 Use Tax Stamp Must Be On Your Car By Today

Uncle Sam is going to get hard boiled about this use stamp tax, and you must have it on by Saturday, or you will be subject to a fine. As a matter of fact there are several fines.

You are subject to a fine for not buying one and also for not displaying it after you buy it. So you'd better get down right away and get it or them, as the case may be.

Instructions have gone out to Inspectors to check cars that have the tag missing and fines will be imposed.

Three Strikes Is Out And TWO Can Be Foul!

Our Senator, Johnny Beacham, it is reported, espoused the cause of our Junior U. S. Senator and lost overwhelmingly the two counties in which he was supposed to have been the "fair haired boy" politically.

Our State Senator "fit, blest and died" for the gentleman with the flowing tie from Starks so enthusiastically that he substituted the other candidate was a bit careless with the truth—and this isn't help him in Tallahassee.

Now Johnny comes along and accuses the incumbent of the Governor's chair of stifling and restricting his freedom. We're not suggesting that this is a subterfuge against the teacher's union but that's what it amounts to.

You are allowed a few wrong political guesses, Johnny, but get your "bitches" cut down to fit your political side. Being President of the Senate only lasts for one term—you're one of the boys now.

WINCHELL ON BONDS

Walter Winchell's column carries an essay on bonds which we think everyone should read. Here it is:

I have always spoken bluntly about the subject of war bonds, and I see no reason to pull punches now. I do not think the purchase of a war bond is a patriotic sacrifice. I think quite the opposite. I believe failure to do so is almost treason. In American history this should be called the War of the Armed Forces—because nobody else is fighting it.

It sounds silly, but the U. S. Government pays interest for the bullets it gives to its soldiers. And if the soldier is lucky enough to get back home, he must help to pay for the gun he carried. If he is shattered and if he recovers, he must help to pay for his crutches. . . . Doesn't it make you proud to drive that kind of a bargain with your Government? . . . And to think that the money is owed to civilians who never saw a battlefield!

If the crews of the lost B-29s which bombed Japan are lucky enough to get back with their heads, they will help you to work for the B-29 in which they were shot down. And if they do not come back, their buddies will help to pay for the bombs they dropped. You get paid either way. Yes—you may call yourself a patriot for taking less chance on your country than you do on a race horse. . . . And those brave little nurses that start right to work to pay you back for the handages!

Yes, it sounds incredible, but the posters are true. . . . You can come out with 2 1/2 per cent in the two legs. But don't let it of the guys (who fought it) their same legs. But don't let it work for you. . . . If you didn't buy a bond, you don't have to look every fighting man in the eye. . . . Buying an extra bond is much easier than learning Japanese.

The Individual Purchasers Slow Down Remarkably In The Fifth Drive

Milton Campbell reports approximately \$30,000 in sales for "E" bonds, which is approximately 25 per cent of the quota set for the community. Other bonds, however, are up to the \$372,000 mark, with prospects that the quota on those will be met.

What the officials of the Treasury want, and what common sense dictates is that the individual purchaser of the \$18.75 bond is the one that will be most benefited and will aid the Treasury's plans more. Large financial institutions would over subscribe the Fifth Drive in short notice if allowed to, but the effort is being made to get a certain percentage in the hands of the small investor.

The Lions Club is leading in the Club contest with the Business and Professional Women's Club trailing a second.

Two Glades Boys Reported Injured

Sgt. Hub Spooner is in a hospital in England recovering from wounds received in the invasion. His wife, formerly Helen Stollenberg has received two letters from him written by himself saying that he is successfully recuperating.

First Lieut. Jerome (Jerry) R. Gold sent his folks a cable July 4th notifying them that he was in a hospital and recovering. This was good news as the Department had sent a message saying that he was seriously wounded in the invasion.

This good news concerning two boys is gladly received by their many friends in the Glades.

Unexpected Hazards Recognized By Law Recently Passed

Prompt adjustment in ceiling prices on fresh vegetables, making "appropriate allowances" for unexpected hazards of production and marketing, are provided in the authority granted OPA by legislation reestablishing the agency until June 30, 1945 in the opinion of LaMonte Craw, manager of the Florida-Vegetable Canners Committee.

"One of the greatest hazards faced by vegetable growers this spring was the inflexibility of the price control regulations governing sale of Florida fresh commodities," says Mr. Crawl. "No definite provision existed in the old law for revising announced ceiling prices if adverse weather conditions cut the yield or substantially increased production costs. In spite of this, the Florida Vegetable Committee succeeded in showing to OPA the need for upward adjustments in snap beans and cucumbers, (Continued on page 4)

Good For Home Consumption

It has remained for Eric Johnston, President of the United States Chamber of Commerce, to lead the way in championing the American system of private enterprise. Instead of belittling our system as outmoded, as is too common a political practice here at home, Mr. Johnston, at a luncheon given him in Moscow by the Soviet Trade Commissar, said:

"In economic ideology, the practice of my country is different from yours. You are state-minded, collective-minded. We are most private-minded, most individual-minded and, gentlemen, make no mistake, we are determined to remain so or even become more so."

"I think each of our two countries should be allowed to pursue its own economic experiment, unimpeded by the other." Speaking of a "gulf" between the nations, he said: "Three bridges of practical cooperation can be thrown across it: (1) Our common determination to bring Hitler and fascism to an end; (2) Our common passion for production; (3) The bridge of export and import trade." The Russians applauded his speech and Trade Commissar Mikoyan congratulated Mr. Johnston.

We need more men like Johnston praising our own country and American private enterprise. Too many of our politicians are pussyfooting on this subject, while injecting government further and further into the affairs of private citizens, thereby limiting individual opportunity Mr. Johnston can do missionary work at home as well as in Russia.

Must They Pay For a Job?

An issue is before the state of Oregon that will be common to each of the 48 states. The voters of the city of Portland have approved postwar projects involving the expenditure of millions of dollars in public improvements which will afford employment and opportunity to the boys returning from the armed services.

The question is now raised, will the veterans of World War II be forced to join labor organizations and pay the dues in order to obtain employment on public works jobs financed by taxation? In other words, when the taxpayers authorize a public expenditure, will that mean that a substantial percentage of such money must be allocated to organization dues, rather than to the improvements for which the money was voted?

Veterans who risked their lives to perpetuate individual liberty, may well resent restrictions at home that force them to pay for the right to earn a living.

We Like Our Doctor

Sixty-six per cent of the American people consider their physician tops, both professionally and personally, according to a nation-wide sampling of public opinion conducted for the magazine Medical Economics. The remaining 34 per cent either had no opinion in the matter or cited characteristics of their doctors which they found objectionable. Six per cent objected to the physician's personality, 4 per cent said he rushed patients too much, 3 per cent challenged his personal competence, 3 per cent called him indifferent. Other faults mentioned were too varied for classification. The main thing is that 66 per cent found nothing to dislike about their physician. Another point of outstanding importance is that only 3 per cent challenged their doctor's competence.

The good things said about the doctors summed up to what one might expect in an independent system of medicine where the success of a doctor depends upon his ability and character. They include pleasant manner, professional competence, thoroughness, promptness, friendliness, politeness, easy to talk to, sympathetic, helpful, cheerful, not pompous, etc.

Contrast such a personalized medical service with socialized medical systems where the patient becomes a cog in an impersonal machine. The human relationship between the American doctor and his patient is one of the greatest assets of medicine. It should never be debauched by political tinkering.

You Must Help

Previous to World War II, the average shipper's only spur to perfection in packaging goods was to have fewer loss claims, said Colonel E. C. R. Lasher, Deputy Chief, Traffic Control Division, Army Transportation Corps, to the Transportation Club of the Rochester, New York, Chamber of Commerce. This hasn't changed a bit, but proper packing is now a thousand times more important in the interest of saving lives through preventing loss of valuable material. "Perfect packaging, legible marking and careful storage will never produce any piece of equipment, but careless packaging, illegible marking and improper storage will result in the loss or damage of equipment which has occupied invaluable shipping space and consumed hundreds of irreplaceable man-hours of work," said Colonel Lasher.

Shipments from our country wind up in the frigid parts of Russia, the steaming jungles of New Guinea, or the oven-like temperature at the head of the Persian Gulf where the thermometer hits 180 degrees in the sun—and no shade.

THE POCKETBOOK OF KNOWLEDGE

RESEARCH ENGINEERS HAVE DEVELOPED A PORTABLE FIRE TRUCK WHICH PUTS OUT FIRES AUTOMATICALLY. AN ELECTRICALLY OPERATED BRASS DOME WITH A "SNOOT" TURNS ON THE FIRE EXTINGUISHER CONNECTED WITH IT WHEN FLAMES COME ON THE STOVE.

A NEW CLEAR SYNTHETIC RESIN SEALS CRACKS IN THE SHEET OF AN ICEBERG. IT PREVENTS IT FROM LEAVING A RING ON THE TABLE.

Supplies have to be landed under gunfire. They get rough handling. If they go to pieces, irreplaceable goods are lost and the men on the front may pay with their lives.

"Canned food packaged in corrugated cardboard boxes soon cease to be cases of corn or of beans," said the Colonel. "The boxes disintegrate... labels come off cans... the balanced ration ceases to exist, the cook becomes hysterical..."

The answer to most of these problems is proper preparation for shipment—in other words, "perfect shipping." The Army is conducting research and development. We have powdered our eggs against smash-up. We have barricaded our trucks against pilferage. We have teams of "shipment surveyors." Experience data from factory shipping floor to combat area are made the basis of continuous improvement and revision of specifications.

"With the exception of a few isolated incidents, packing is now the best it has ever been... It is part of your part in helping to win this war."

First Communist: "Nice weather we're having."
Second Communist (grudgingly): "Yes, but the rich are having it too."—Wichita, Kan. Democrat.

CINEMATIC CHATTER

By Malcolm Millar

Claudette Colbert and Fred McMuray are really teamed in a great picture to be shown at the Everglades Theatre this coming Sunday-Monday under the title "No Time For Love."

Ilka Chase, Richard Haydn are featured as excellent support for this pair and the picture has a four star rating among critics. Picture tells of Claudette Colbert's assignment to take pictures of "sand hogs" underground. She is attracted to one of them. He doesn't go for her and tells her definitely that she is "his type." Claudette has other ideas about this crack and from then on the story unravels with such rapidity, wit and down right yells of laughter that one would have a hard time keeping up with this pair and their "buddies."

Yes, it's a must picture, and you who attend its showing will agree with me that there is no time for love in the busy life of an underground "Sand hog." I see you have Bela Lugosi returning to your screen Tuesday-Wednesday in a chiller-diller under the title "The Return of the Vampire In the East" with Lugosi as Frieda Inescort, Nina Foch and Miles Mander. Personally I don't go for this actor or any of the pictures he appears in, but I read in the press stories that this picture does have something in the story that is interesting and that it is wholly entertaining through out. You be the judge of that.

I can't say whether Henry Aldrich will be as funny or funnier in this coming picture as he was in his last picture, "The Old Judge Says..."

Boy Scouts On Camping Trip

The Boy Scouts of Belle Glade are spending this week at Camp Osborne, Lake Worth. Scoutmaster Frank Waller accompanied them to camp last Sunday. As he was not able to stay with them during the week, he returned Sunday night but will go down to get them Saturday.

Those who are enjoying the week at camp are John Breger, Lee Burke, Henry Fears, Clyde Crosby, Jr., Buddy Friedheim, Kenneth Harris, Robert Hummel, Edmund Jameson, Billy Joe Leathers, Wilfred Markham, John Neller, Ernest Pale, Meriton Raskley, Merle Smith and Albert Stevens.

Children's Story Hour at Library

The Woman's Club is sponsoring a story hour at the city library each Wednesday morning from 10:00 to 11:00 o'clock. Parents are invited to send their children to this enjoyable feature which will continue through the summer months.

Mrs. J. F. Browne, librarian, is in charge and is being assisted by others. Additional help is needed and any one who will volunteer to help is urged to contact Mrs. Browne.

Our boys must keep on fighting—we must keep on buying WAR BONDS until victory is won. Keep on BACKING THE ATTACK.

THE OLD JUDGE SAYS...

"I can't think of anything else you'll need for your Victory garden, Judge... you've got pretty nearly everything."
"I think so, too, John. Ever get your superbug patch pulled?"
"I gave that up last year, Judge. Tried it six years in a row with no luck. Just haven't got the right soil, I guess."
"Well, I think you're wise, John... no use keeping on trying things you know won't work. Just like prohibition. State-wide prohibition has been tried in this country seventy-two times in the last ninety years. It has been adopted forty-seven times in the past thirty-three years and discarded everywhere except in three states. Same thing was tried in eight provinces in Canada and in Norway, Sweden, Finland and Russia but it was an admitted failure and universally abandoned."
"The reason is prohibition does not prohibit! All you get is bootleg liquor instead of legal liquor, plus no end of crime and corruption."

Mrs. Henry Harrison and daughter Margaret Elizabeth, have returned to their home in

Tampa after visiting Mrs. John Hawkins.

M. H. Ruggles, Richard Granis and Laverne Lockmiller of South Bay have joined a group of boys at West Palm Beach for a trip to Camp M. Mitchell, Burnsville, N. C. Mr. Ruggles will be an instructor at the camp.

George Yon, formerly of So. Bay, now living at Zellwood, was here on business this week.

Wendell Lyons has gone to Arizona to spend his vacation.

BLESSED EVENT

Mr. and Mrs. T. C. Yon, formerly of Belle Glade, now living in Panama City, are announcing the birth of a daughter on June 22.

Churches of Christ, Scientist

"God" is the subject of the Lesson-Sermon which will be read in the Churches of Christ, Scientist, throughout the world on Sunday, July 2.

The Golden Text is: "Who is God, save the Lord? and who is he that saith, save our God? his strength and power: and he maketh my way perfect"

Service Flag To Be Issued For WAVES

Of interest to the hundreds of Navy Waves families throughout Florida was the announcement today that a special emblem is being designed to designate the homes of Florida Waves. According to Chief J. H. Navy Recruiting Station, these emblems are being prepared for distribution to the families of members who have entered naval service.

The emblem is subject to framing or may be placed on the front of a window of the Wave home. It is embossed in red, white and blue on heavy lacquered paper.

Student Minister Gives Good Sermon

Loren Williams, a student of the Bob Jones Ministerial College in Cleveland, Tenn., is here spending his vacation with his parents and delivered an excellent sermon at the First Baptist church last Sunday.

The vacancy in this pulpit, left by the resignation of Rev. J. E. Dillard some weeks ago, has not yet been filled permanently and it is hoped that this promising young student will again appear at a near future date.

MY HEART IS OVER THERE

That's why my HANDS are busy here!

MILLIONS of American women are applying their hands over here, answering Uncle Sam's call to help with our national food crisis. With 20 million Victory Gardens and five million jars of home-canned foods, they conserved our resources of fighting foods in 1943.

In 1944 you are being asked to raise and preserve 20 percent more, to assure every fighting Yank and his brother—as well as the home front—with needed nourishment.

For success, can with care, following proper instructions, and use BALL JARS. They have been the housewife's preference for more than 40 years. Leaders always!

BALL BROTHERS COMPANY
Muncie, Indiana, U. S. A.

BALL BLUE BOOK
FOLLOW INSTRUCTIONS CAREFULLY!
Your success is insured by following instructions included in each box of BALL JARS. Ball's new booklet, "Ball's Blue Book," contains all the information you need to know for the success of your Ball Blue Book.

V FOR FIVE AND V FOR VICTORY

D. R. Fitzpatrick—St. Louis Post-Dispatch

Younguns Leave For Camp McPherson, Ga.

Fourteen young men under the age of 26—and most of them around and under 20—left the Glades Thursday morning for Camp McPherson for service in Uncle Sam's Army.

They left with the wish of a member of the selective service board that "all of you will see Paris and Berlin—after the armistice."

Those leaving were: James Oliver Allen, Lester Gordon Berryhill, James Monroe Dean, William Milton Douglas, James Robert Green, Merlin Lorenza Hatcher, Lorron Lee Hawkins, William Porter Hill, Jr., William Maurice Johnson, Scott Lee, Henry Jordan Martin, Louis Yarn Miller, William Torrey Williams, Arnold Samuel Scruggs.

Fourteen young men under the age of 26—and most of them around and under 20—left the Glades Thursday morning for Camp McPherson for service in Uncle Sam's Army.

They left with the wish of a member of the selective service board that "all of you will see Paris and Berlin—after the armistice."

Those leaving were: James Oliver Allen, Lester Gordon Berryhill, James Monroe Dean, William Milton Douglas, James Robert Green, Merlin Lorenza Hatcher, Lorron Lee Hawkins, William Porter Hill, Jr., William Maurice Johnson, Scott Lee, Henry Jordan Martin, Louis Yarn Miller, William Torrey Williams, Arnold Samuel Scruggs.

TOWN HALL

(Continued from page one.)
be a source of good street rock for years to come. A digging tool, rock crusher and screen and trucks with which to haul should provide ample rock close to Belle Glade's streets so that they might be kept in good repair at a minimum of costs.

FRIENDLY MARKET IN NEW QUARTERS

The Friendly Market, one of the oldest grocery stores in the town, has moved into new quarters across the street from the City Hall into the Rader building.

The store now occupies a space 20x80 and is well lighted and ventilated by large skylights. A complete stock of goods fills the spacious shelves including many items that have not been available for several months such as dried apples, canned fruits for pies, mayonnaise, etc.

The grocery is one of the chain owned by Royal's, Incorporated and is managed by George Taylor. He is ably assisted by Homer Webster as meat cutter and Mrs. Taylor and Miss Emily Bregger as clerks.

According to Mr. Taylor, the large store room adjoining will be opened this fall as an exclusive dress shop and will be run in conjunction with the grocery.

Delinquency of Girls Studied By Welfare And Other Agencies

Of a reported 1,031 young girls and women jailed and apprehended throughout the State in a single month, only a portion were listed as suffering from a social disease.

All social agencies are working together to remedy this situation and to cooperate in the rehabilitation of the females after treatment and cure, such as securing positions and return to their homes.

UNEXPECTED HAZARDS

(Continued from page one.)
and for holding off imposition of ceilings on tomatoes, celery and other commodities during the 1943-4 season.

prior to the "normal planting season in each major producing area affected." Another new subsection says: "(e) Notwithstanding any other provision of this or any other law, no action shall be taken under this Act by the Administrator or any other person with respect to any agricultural commodity without the prior approval of the Secretary of Agriculture" except that the Administrator may take such independent action as may be necessary to enforce orders previously approved by the Secretary of Agriculture. The requirements of the quoted subsection will not apply to "any agricultural commodity of any major producing area in which the normal planting season occurs prior to July 31, 1944."

Now, the best of hearing are offered a test that scientifically answers their question—
"Can my hearing of speech be restored to normal?"
THIS Speech-Hearing Test is a mercurial judge of any hearing aid. It plays no favorites, allows no excuses. Put the new Symphonix Acousticon, hearing aid based on U. S. Government findings, to this acid test. Whether or not you use a hearing aid let any make—whether you have a mild, medium, or severe hearing loss—come in to observe, tested with a relative or friend, and take this Speech-Hearing Test absolutely free.

IT'S A BIG BARREL—but we're scraping bottom!

Since the National Defense program began in 1940, the Bell System telephones in use have increased over 40 million. But there's no more equipment now. The Army and Navy have first call on that. That's why we can't fill civilian orders as fast as we'd like.

As we scrape the bottom of the barrel, we're trying hard to make what we have do the best possible job by...

- * Stretching switchboards to make room for more lines and calls.
- * Reconditioning all serviceable facilities and getting them to use.
- * Recovering facilities quickly when service is discontinued.

Nobody likes to stand in line. But it's different when the line forms behind our fighting men. Your cooperation is appreciated.

FLORIDA MOTOR LINES
WANTS MEN LIKE You!

You've done a fine job for your country... and we would like to have you help us with our job. In return Florida Motor Lines will see to it that you get a friendly welcome into a spirited organization—and a genuine opportunity to assume your rightful place on the civilian front.

We invite you to stay in the fight with us. Bus transportation has a tremendous responsibility to shoulder for the nation... we can't fall short. We can use men of action in our offices, in our stations, and driving our buses.

Before you decide on your civilian employment, won't you come in and talk things over. We would be mighty happy to see you.

FLORIDA MOTOR LINES

SOME DAY
Another Train Will Come

A hurried goodbye... the brave reassuring words of parting... the long train dwindling in the distance... a son goes off to war.

Months of lonely waiting lie ahead... waiting and praying for the day when another train may come down those same tracks bearing their son and others safely home.

The vast armies in the field are counting on us to do our part. Buying more bonds than before... unselfish sacrifice for a common cause... keeping supply lines open by avoiding unnecessary trips... the way we perform our homefront tasks... all assume a new importance.

Sons of hundreds of our Florida East Coast Railway families, too, have gone to war. Many of our yellow workers have joined the fighting ranks. Facing the troop trains through-keeping the freight rolling with equipment and supplies is vital to us as well as you.

The ability and determination of the Florida East Coast Railway and other railroads to effectively meet the quickening demands of war is helping to speed the day of final Victory... that day when our boys will come bringing your boys and ours back safely home... back home at last to stay.
